

JANUARY

Make everyday an early learning day with these **at-home family activities and resources**

HANDS-ON ACTIVITIES

Candy Cane Science

Have extra candy canes or peppermints lying around your home? Check out this science activity that asks, "What will make a candy cane dissolve fastest?" Encourage your little scientists to make predictions and draw what they see while doing this fun experiment!

littlebinsforlittlehands.com.

Build-A-Sled

Using household items, such as those leftover boxes from holiday presents, you and your child can create your very own "snow day" sleds. Gather more items, such as trash bags, plastic bins, stickers and tape to make your sled. Then, put on your winter hat and gloves and you can pretend you're racing down snowy mountains in your new sled.

Make Your Own Snowperson

There's no snow, but you want to build a snowperson? Try crafting one out of socks instead! All you need are long socks, rice/small beans, glue, and decorations, such as buttons, stickers, ribbons, pom-poms, or markers.

Make sure to customize your snowperson and give it its own personality.

Martin Luther King Jr. Day Learning

Martin Luther King Jr. Day is great opportunity to talk with your child about the importance of standing up for what is right. Check out [Quality Start LA's MLK Jr. booklist](#) to read about this incredible leader and spark discussions about how we can each make a difference. Ask your little one, "What can you do to help others?" Or try this activity from notimeforflashcard.com to keep the conversation going.
