Are you interested in improving key practices and strategies in support of Dual Language Learners (DLL) in your early learning program?

The DLL Communities of Practice (COP) offers a unique way for early learning instructional leads, directors, and program administrators to approach professional learning by sharing knowledge and best practices through facilitated conversations with their early learning colleagues. Each COP will focus on a specific topic of interest or problem of practice affecting Dual Language Learners.

Objectives:

- Engage in facilitated conversations with your peers.
- Build community and relationships to learn from each other.
- Develop a comprehensive toolkit of resources, experiences, stories and shared practices.
