Zoom Sessions

Are you interested in improving key practices and strategies in support of Dual Language Learners (DLL) in your early learning program?

The DLL Communities of Practice (COP) offer a unique learning opportunity for all early educators, including center-based teachers, family child care providers, home visitors, and ECE leaders. Each COP will focus on a specific topic of interest or problem of practice affecting Dual Language Learners.

Goals:

- Engage in facilitated conversations with your peers.
- Build community and relationships to learn from each other.
- Develop a comprehensive toolkit of resources, experiences, stories and shared practices.
