Thanksgiving Activity Guide

Create a gratitude tree with your little one! This fun craft helps us pause and reflect upon the things we feel grateful for. A gratitude tree can help you connect with your kids and understand what they feel is important.

**Supplies:**
- White Paper
- Colored pencils, crayons, and markers
- Scissors
- Glue or tape
- Green, red, orange or yellow construction paper (optional)

**Step 1:** Help your little one trace the shape of a tree and color in the tree trunk using a brown marker or colored pencil.

**Step 2:** Help your little one draw leaf shapes onto a piece of paper. Use colored pencils, crayons, and/or markers to lightly color in your leaves.

**Step 3:** Sit with your child and think about what you both feel thankful for: it can be anything! Write one response on each leaf. Check out the books below for inspiration!

**Step 4:** Help your little one cut out their leaves.

**Step 5:** Glue down your leaves onto the tree trunk and display in your home!

Click on each book cover for a read-aloud!

**Thankful**
