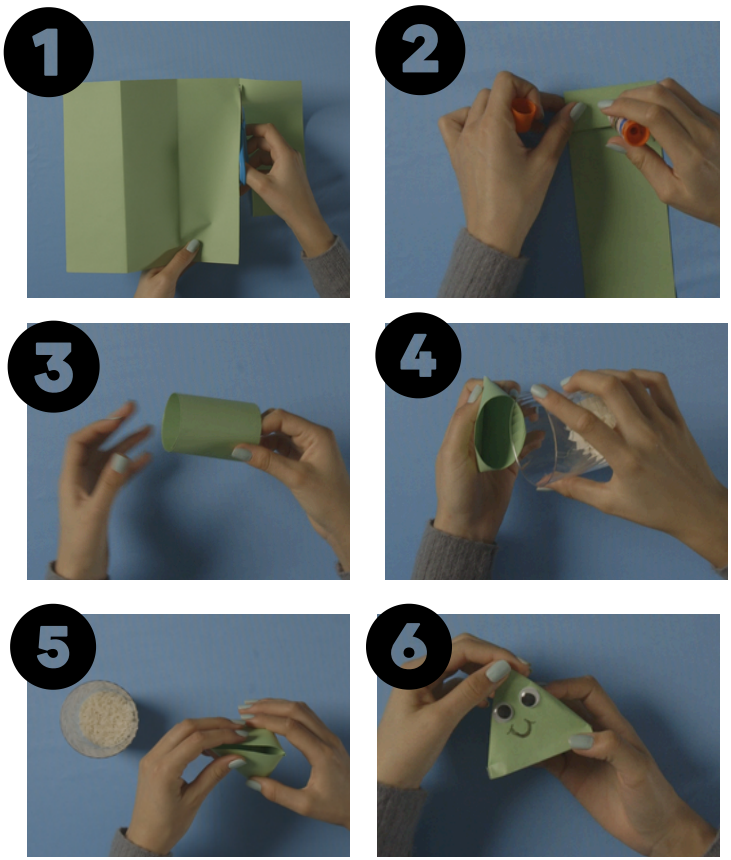
Dragon Boat Festival Activity

The Chinese Dragon Boat Festival is a major celebration each year. In China, almost everyone will make rice dumplings, eat rice dumplings and watch boating performances on that day. Join the fun by creating your own paper dumplings!



1. Fold the green sheet of paper into fourths. Cut each rectangle piece following the creases. Then, snip about one inch off of the paper
2. Then, glue along the small edge of the rectangle and roll up the paper, gluing the short edges together.
3. Next, press one of the open sides of the roll together and tape down.
4. Then, pinch the other open side of the roll together to create the dumpling or triangle shape. Before you tape down this side, put a few grains of rice inside of your dumpling.
5. Next, draw or paste eyes on the dumpling.
6. Finally, you can draw on the mouth to complete your dumpling!
