NEW YEARS ACTIVITY GUIDE

PUT ON YOUR PARTY HATS

Create your own NYE party hats this year! Decorate a sheet of paper, roll it into a cone, glue or tape the edges together, trim the bottom, and tape some ribbon to each side to tie it to your head. Then dance the night away while watching the Time's Square ball drop [here](#), or put on a countdown from [Netflix's collection](#) to celebrate early enough for bedtime.

MAKE SOME NOISE

Try creating home-made noisemakers to kick-off the start of the new year! All you need is paint or markers, craft sticks, bells, raisin or small snack boxes and glue/tape to get started! As an alternative, you can also use a clean water-bottle and household items like rice, dried beans, paperclips, beads or anything that will make some noise when shaken!

EAT GRAPES

Start the new year with a healthy snack and an old tradition. Coming from Spain, many Latino cultures ring in the new year by eating 12 grapes for good luck or making wishes for the new year. You too can start a new tradition with your child. Try making New Year's resolutions or blowing up balloons, popping them every half hour around midnight.
