Lantern Festival Activity

The Lantern Festival is a major celebration each year. The holiday marks the first full moon of the new lunar year and the end of the Chinese New Year. Join the fun by creating your own lantern!

Paper Lantern

1. Start by helping your little one cut one inch off of the short side of the paper. Set this piece aside, it will be your handle for your lantern.
2. Then fold the paper in half lengthwise. Opposite of the fold, draw a line across your paper horizontally one inch from the top.
3. Next, make cuts going up to that horizontal line about one inch apart from each other ,
4. You then can decorate your lantern any way you want using markers, paint, or other paper.
5. Once you're done decorating, unfold your paper and roll the paper into a tub shape. Overlap the long side of the paper about a 1/2 inch and either tape or glue.
6. Finally, using the piece you cut at the beginning, tape or glue the handle onto your lantern.

Materials:

- construction paper
- markers, crayons, or paint to decorate
- glue or tape
- scissors
- ruler
